

I can't find a cat

The cat can be only in three multiverses: in the flat, in the sofa, or on the street (if you don't close the door). Search the sofa.

How to feed a cat

Once a day the big white bowl should be filled with dry food Royal Canin for Sphinx.

Once a day in the morning or in the evening you could give her wet food - 1 portion/pack of Purina Pro Plan.

It is necessary to change water in the glass on the table and in one metal bowl on the ground.

There is no need to wash the bowls every day because she licks them every day.

She adores nori and arugula and especially grass from the balcony.

How to clean cat's toilet

There are 2 types of toilet cleaning full cleaning and partial.

Every 5 days it is necessary to completely replace the filler.

Once within these 5 days (on the 3-rd day for ex.) the toilet is necessary to partially clean.

Use gloves, wash your hands with soap after cleaning, don't delay the taking out radioactive waste.

How to wash a cat

Cats of this breed often sweat, so they need to be bathed once a week. If the cat starts to smell like mushrooms in the forest after rain, it is dirty.

In this case, it is necessary to measure the problem. Dirty cat, happy cat. Clean cat, scratched you. If it may wait, wait for 2-3 days. Because she doesn't like to take a bath.

If bathing is unavoidable, the water should be comfortable for washing human hands, use special shampoo and a purple sponge. The procedure ends with a rubdown with a small brown towel.
